

Gloucestershire Bat Group

The group was formed to promote the protection and conservation of bats, their roosts and habitats within the county of Gloucestershire.

It aims to:

1. Provide a service to assist the public with enquires and concerns relating to bats and to provide publicity and educational activities.
2. Train and develop licensed roost visitors from within the membership.
3. Undertake, within the county, practical bat conservation work and to co-ordinate the survey and monitoring of bats, particularly their roost sites, in consultation with English Nature (EN); to maintain records of such work and provide information obtained to EN, the Centre for Ecology and Hydrology (CEH), the Biological Records Centre (BRC), Gloucestershire Centre for Environmental Records (GCER) and, where appropriate, to other accredited research bodies, groups and individuals.
4. Raise funds to promote these aims.

Membership of the Gloucestershire Bat Group is open to anyone who supports the aims stated above.

No member should undertake any commercial bat surveys or advise on planning applications in the name of the bat group without the express permission of the committee.

Declaration

I have read and am in sympathy with the aims of the Gloucestershire Bat Group and agree to the above condition of membership
